Large Natural on Lionhead, Airplane Bowl

Date
Sat, 12/03/2022 - 10:20
Activity
Snowmobiling

From IG 12/3: It was natural. Happened last night or this morning. It hadn't slid when we left yesterday. We were first tracks in today, and there were no tracks above or below this slide. Crown at the peak was around 6'. Average 2-3' crown. 10' debris piles at least.

Region
Lionhead Range
Location (from list)
Lionhead Ridge
Observer Name
Reed Malmstrom
