Remote triggers - McAtee

Date
Fri, 02/23/2024 - 16:00
Activity
Snowmobiling

North facing aspect above McAtee creek. Triggered one remotely while traversing below, ~150 yards away, and likely triggered the second one from below as well but cannot confirm. 4-6 foot crowns, 50-100 yards wide, ran 75-100 yards

Region
Northern Madison
Location (from list)
Buck Ridge
Observer Name
Matt Rolfson
