

Cornice collapse on Iceberg

Date

Fri, 04/12/2024 - 12:40

Activity

Skiing

Natural cornice failure and small slab on Iceberg Peak's NE face. We skied by the day prior and judging by what the wind did to our tracks overnight, this looked like it happened in the morning.

Region

Cooke City

Location (from list)

Mt. Zimmer

Observer Name

Akio Joy
